Evening Program – Jon Genereaux, a propagator at MSU - Hidden Lake Gardens, will demonstrate and offer practical hands-on experience, demonstrating how to root cuttings and grafting techniques related to woody material. A limited number of members will have an opportunity to practice these grafting techniques.

Members of the AABS will welcome Jon Genereaux to Ann Arbor with a dinner at a nearby restaurant. We will meet at Roger Monks, 5400 Plymouth Road (a half mile east of Dixboro Road), at 5 PM. Please join us at Roger Monks.

PRESIDENT'S PERSPECTIVE

This year's club activities and guest speakers will be taking us into side dishes of the bonsai menu. Kusamono, Artistic Visual Concepts, Bonsai Japanese Gardening, Concepts of Fertilizing, Shoshin (Beginner's Mind). These are just a few of the delights coming your way.

My goal, as your president, is to stimulate your bonsai interest.

Bonsai goes beyond just growing a tree in a pot. That's horticultural; certainly an accomplishment in itself. I want you to go beyond the horticultural and think about why we create a design into the tree.

Where did this design come from? Did we see it someplace? Did we create it in our minds? How do we work with this creative desire?

Basic bonsai techniques will be used to create our design, wiring, grafting, clip and grow, to mention a few, while Shoshin will be the discovery force behind our final decisions.

This year I am encouraging everyone, from advanced to beginner, to look at their designs and ask why. Why did I choose this design, why did I use this technique and what else can be done to enhance the final concept. To that end I encourage everyone to attend all the classes, seminars and lectures that you can. Bonsai is unlimited in its development. Be part of this development. Join in the discussions, share your opinions, and listen to the opinions of others. The web has opened whole new worlds to us, use it. Join us on Facebook.
